

LED Bollard Lighting

The Brighter Look that Lasts

Introducing technologically advanced LED upgrades for all existing bollard light fixtures. Keep your pole and housing, discard the traditional energy-sucking bulb, and save 60% to 85% with our revolutionizing Vector SustainabLEDesign product line.

Features and Benefits

- Eliminate the need for a full-scale replacement project, which can be an expensive and time consuming process for bollard lights.
- Decrease energy consumption, lengthen the light bulb's lifetime, improve robustness, and have more directional controllability.
- Increase green business practices with Qnuru's Universal Lighting Control Processor (ULC), which allows for a seamless transition from grid to solar power sources as well as dimming, timing, and motion detection capabilities.
- Increase visibility, security, and aesthetic appeal in cities and residential neighborhoods where these lights are used.

Vector Light Bulb for Bollard

60-100 Existing Wattage

LA4-LIN-04 24 LEDs 1,940 lumens 5" X 7 1/2" X 1/2" fixture

Below is a partial list of common lighting manufacturers and their model numbers that Qnuru upgrades to LED using its Vector light bulb for bollard light applications. Our Customers order our light bulb to create a unique environment for their business, school, park, or community center.
